

Medical Coaching Training Program

Module 3 – Advanced

Lesson 1, Class Assignment

Work with a fellow Medical Coaching student or PMC.

1. Practice the **Parts Integration** technique.

In your report, write a summary addressing the following:

- The issue the client presented
- The way you identified and reframed the conflict
- The way you elicited the positive intentions
- The way you followed the technique instructions. (don't rewrite the instructions, write how you did it and what you said). Remember, the more information you give – the more feedback you get 😊
- The new resource and symbol
- Three examples of things you noticed in calibration – at least one that led you to understand that you could move on to the next level.
- (calibration refers to what you saw and heard in the client's body language, facial expressions, and tone of voice, without interpretation)
- If you were to give the client a "homework" assignment that would help the client "deepen the learning and forward the action", what would it be and why?
- What was your practicing partner's experience as a client?
- Dilemmas and questions
- Your learnings.

Send the report to your mentor in a WORD format.

Enjoy 😊
